

Christian radio stations help a lot of people. They should not be regulated by the FCC.

The station I listen to has brought tremendous joy to me. If someone doesn't want to listen to it they have the choice not to. We should be granted the same choice to be able to listen to the stations without FCC interference. Its not like we are broadcasting and forcing everyone to listen to it. It is a choice. Like the choice to not have the FCC involved in Christian radio.
